A2B Tracking Integrated Solutions

Government Property Management for Costpoint Users

CLOUD SOFTWARE

Tracking and managing assets and inventory in support of government contracts is critical to meeting your contract obligations. That's why A2B Tracking provides enhanced asset management functionality to Costpoint users who require a Government Property Management Business System for DCMA audits and automated data exchange to PIEE, WAWF, IUID Registry and GFP Module.

The A2B Tracking software is designed with automated IUID compliance and robust audit trails for complete lifecycle asset management to FAR 52.245-1. The platform also leverages IUID, barcode and RFID to track inventory 30x faster and improve the accuracy of government property and inventory to 99% or better.

Perform fast and accurate inventories/ cycle counts with barcode, as well as, mobile and fixed RFID. Save significant time and improve the visibility of your critical assets, equipment and stock.

Perform inventories accurately and quickly with the A2B RFID Tracker app by scanning barcodes to capture and reconcile data and asset events.

Key Features That Enhance Costpoint

Modern Government Property Management

Complete lifecycle asset management and audit readiness for 100% compliance to FAR 52.245-1.

Integrated to Government Systems

Automated data exchange to PIEE, WAWF, IUID Registry and GFP Module.

RFID and Barcode Tracking

Leverage RFID and advanced Barcode tracking for serialized assets and non-serialized stock.

Automate Your DD Forms

With 1-click automatically generate your DD1149s, DD1348s, and DD250s.

Manage using Smartphones and Tablets

Perform your asset management functions using the power of mobility.

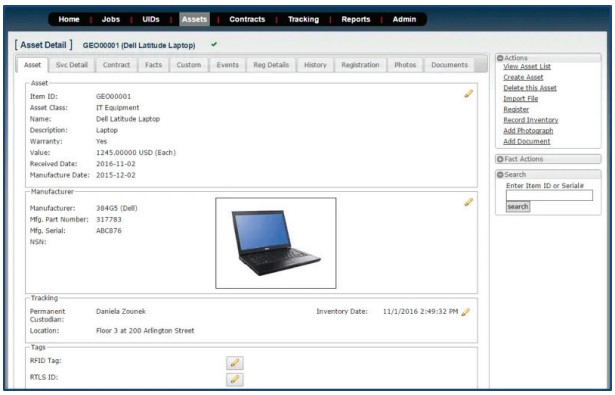
RFID and Barcode Solution for SCIF's

Secure RFID and Barcode scanning for automated inventories inside SCIF environments.

Deltek Marketplace Partner

A2B TRACKING

A2B Tracking is a Deltek Marketplace Partner offering enhanced Government Property Management for Costpoint users.



UC! Web™ manages all asset details and events from acquisition through disposal.

UC! Web™ is an A2B Tracking software platform designed to comply with US military requirements FAR 52.245-1 (Government Property), DFARS 252.211-7003 (Item Identification and Valuation), DFARS 252.245-7005 (Management and Reporting of Government Property)

What Sets UC! Web™ Apart

- Integrated to Deltek Costpoint Fixed Asset module and Inventory module.
- Automated data exchange and integration to WAWF, IUID Registry and GFP Module for property and end items.
- Secure Cloud-based or Self-hosted deployment options.
- One system, fully integrated. No confusing modules or costly separate purchases.
- Advanced barcode and RFID data capture from one system, covering all modern asset tracking methods.
- Fixed gateways and mobile RFID readers combine to provide best value for real time monitoring of asset movements.
- Integrated with mobile computing devices such as industrial scanners, tablets and smartphones.
- Reports all military asset types and shipments, property transfers and asset lifecycle events.
- Creates compliant IUID and RFID labels and plates ready to print

About A2B Tracking

Since 1994, A2B Tracking has pioneered military-grade solutions for tracking and managing critical assets and inventory for government agencies and commercial businesses. We'll help your enterprise take control of your assets and record keeping by providing our secure, cloud-based Asset Management software platform to achieve 99% inventory accuracy or better.

A2B Tracking's Government Property Management Software, UC! Web™, was specifically designed to enable total compliance to FAR 52.245-1 (Government Property), along with compliance to military asset and shipment identification standards while providing automated data exchange to WAWF, IUID Registry and GFP Module. The UC! Web™ platform is a secure, versatile asset management solution designed to automate your lifecycle events - from acquisition to disposal.

Call the Experts
